Renseignements généraux

Les renseignements que contient ce volume de la série des Répertoires géographiques du Canada ont été réunis au moyen d'une banque de données informatisée. Cette automatisation facilitera la révision et la mise à jour des renseignements pour les éditions suivantes. La conception et le format ont été établis, en grande partie, grâce aux commentaires des usagers.

Comme nous voulons demeurer attentifs aux besoins de nos clients, nous vous invitons à nous faire connaître vos observations sur ce volume. Vos suggestions et critiques concernant le style et la présentation du contenu de ces volumes peuvent nous être adressées à:

Division des services de géographie
Direction des levés et de la cartographie
Ministère de l'Énergie, des Mines et des Ressources
615, rue Booth
Ottawa (Ontario) K1A 0E9

Prière d'adresser vos questions sur les noms, sur la politique et les pratiques concernant l'origine et l'usage des noms géographiques ou la terminologie au:

Foreword

This volume is the second edition of the Gazetteer of Canada: Newfoundland, replacing the first edition, published in 1968. It contains approximately 23 000 entries of names of places and features in the province, including those in Labrador. Although this edition does not contain a section on names of Saint-Pierre and Miquelon (as did the 1968 edition), it does include names of various undersea features close to Newfoundland's shores.

This publication reveals the colourful specifics and generics, which contribute such an interesting element to the heritage of the province. The imagination of the gazetteer user is surely aroused by such unusual island names as Baccalieu, Funk, Fogo, Hug My Dug, and Hen and Chickens or by distinctly regional terms like sunker, bantam, gut and droke. The gazetteer is also a guide to the precise location of places bearing such intriguing names as Come By Chance, Little Heart's Ease, Mose Ambrose, Kitchuses, Lushes Bight, Leading Tickles West, and Twillingate, as well as features identified as Sly Boots (rock), Ha Ha Bay, Harbour My God Point, Nogood Island and Toogood Arm.

Since the late fifteenth century, merchant-mariners and fishermen sailed from Europe to Newfoundland's shores and competed each spring for possession of the bays. However, as early as 1583 Sir Humphrey Gilbert took formal possession of Newfoundland for the British Crown. As this year we celebrate the 400th anniversary of Gilbert's annexation of Newfoundland as the first British overseas posession, it seems most appropriate to have a revised volume of our geographical names made available to the public.

The production of this edition has been due in large measure to the work of the Secretariat of the Canadian Permanent Committee on Geographical Names and the Toponymy Section, Surveys and Mapping Branch. This significant contribution is gratefully acknowledged and appreciated by the Newfoundland Geographical Names Board.

Cecil E. Godfrey
Newfoundland Member,
Canadian Permanent Committee on
Geographical Names
St. John's, 1983

Avant-propos

Le présent volume est la deuxième édition du Répertoire géographique du Canada: Terre-Neuve, qui remplace la première ayant paru en 1968. Il contient les noms d'environ 23 000 endroits et accidents géographiques de la province, y compris le Labrador. Quoiqu'elle ne consacre aucune section aux îles Saint-Pierre et Miquelon (à l'inverse de l'édition de 1968), la présente édition mentionne les noms de divers accidents géographiques sous-marins situés près des côtes de Terre-Neuve.

Le lecteur y découvre de pittoresques termes particuliers et génériques qui constituent un élément si riche du patrimoine de la province. Son imagination ne manque pas d'être stimulée par des noms aussi peu ordinaires que ceux des îles Baccalieu, Funk, Fogo, Hug My Dug, et Hen and Chickens ou par des termes à saveur régionale tels que sunker, bantam, gut et droke. Le répertoire révèle également l'emplacement exact d'agglomérations aux noms aussi dignes de curiosité que Come By Chance, Little Heart's Ease, Mose Ambrose, Kitchuses, Lushes Bight, Leading Tickles West, et Twillingate, et d'accidents géographiques tels que Sly Boots (rocher), la baie des Ha Ha, la pointe Harbour My God, l'île Nogood et le bras de mer Toogood.

Dès la fin du quinzième siècle, les marins de la marine marchande et des pêcheurs européens faisaient voile jusqu'aux côtes de Terre-Neuve et se disputaient chaque printemps la possession des baies. Cependant, dès 1583, Sir Humphrey Gilbert, prenait officiellement possession de Terre-Neuve au nom de la Couronne britannique. Comme nous célébrons cette année le 400e anniversaire de l'annexion de Terre-Neuve à l'Empire britannique, dont elle était la première possession d'outre-mer, il est des plus à propos de mettre à la disposition du public un répertoire révisé de ses noms géographiques.

La présente édition est dans une grande mesure l'oeuvre du Secrétariat du Comité permanent canadian des noms géographiques et de la Section de la toponymie de la Direction des levés et de la cartographie. Le Comité des noms géographiques de Terre-Neuve reconnaît et apprécie à sa juste valeur cette contribution importante.

Cecil E. Godfrey
Membre représentant de Terre-Neuve
Comité permanent canadien des noms géographiques
St. John's, 1983

Preface

In 1897, the Geographic Board of Canada, later the Canadian Board on Geographical Names, was established by Order in Council and authorized to rule on all questions of geographical nomenclature affecting Canada. The Board was reorganized as the Canadian Permanent Committee on Geographical Names in 1961, and its present membership and functions are defined by Order in Council P.C. 1969-1458. The Committee is comprised of twenty members and is guided by established principles.

Names approved by the Committee are published in the Gazetteer of Canada, of which the present volume lists all currently approved names in Newfoundland. The Committee welcomes reliable information concerning additions and corrections to Canada's geographical names. After approval, such names will be included in future editions of the gazetteer series.

The co-operation of the Government of Newfoundland has been essential to the accuracy and completeness of this volume. The assistance of Committee member Cecil Godfrey, and former Committee member Gordon Thomas, is gratefully acknowledged.

Jean-Paul Drolet
Chairman
Canadian Permanent Committee on
Geographical Names
Ottawa, 1983

Préface

En 1897, la Commission de géographie du Canada, devenue par la suite la Commission canadienne des noms géographiques, était institutée par décret du conseil et investie du pouvoir de se prononcer et de statuer sur toutes les questions relatives à la nomenclature géographique du Canada. La Commission a été réorganisée en 1961 sous le nom de Comité permanent canadien des noms géographiques, dont la composition et les fonctions actuelles sont définies par le décret CP 1969-1458. Le Comité comprend vingt membres. Ses décisions sont fondées sur des principes établis de nomenclature.

Les noms approuvés par le Comité sont publiés dans la série des Répertoires géographiques du Canada dont le présent volume contient tous les noms approuvés pour Terre-Neuve. Le Comité accueille favorablement tout renseignement valable en ce qui concerne les additions et les corrections à apporter aux noms géographiques du Canada. Une fois approuvés, ces noms seront inclus dans les éditions suivantes de la série.

La collaboration du gouvernement de Terre-Neuve a été essentielle à la réalisation et à la précision du présent volume. Le Comité remercie vivement de leur aide précieuse M. C. Godfrey, membre du Comité, et M. G.S. Thomas, ex-membre.

Jean-Paul Drolet
Le président du
Comité permanent
canadien des noms
géographiques
Ottawa, 1983

Committee Membership

The Canadian Permanent Committee on Geographical Names is composed of representatives from Federal Government Departments concerned with mapping, archives, translation, defence, territorial administration, and appointed representatives from each province of Canada.

Federal Members

DROLET, J.-P.
Chairman, Canadian Permanent Committee on Geographical Names.

SMITH, W.I.
Dominion Archivist, Public Archives of Canada, Ottawa. K1A 0N3

LANDRY, A.
Assistant Under Secretary of State, Official Languages and Translation, Department of the Secretary of State, Ottawa. K1A 0M5

MOORE, R.E.
Director General, Surveys and Mapping Branch, Department of Energy, Mines and Resources, Ottawa. K1A 0E9

HAMMOND, C.L.
Toponymic Research Coordinator for Northwest Territories, Yukon Territory and Indian Reserves, Department of Indian Affairs and Northern Development, Ottawa. K1A 0H4

GRAINGER, Col.R.A.
Director of Cartography, Department of National Defence, Ottawa. K1A 0K2

MacPHEE, S.B.
Dominion Hydrographer, Department of Fisheries and Oceans, Ottawa. K1A 0E9

SUTHERLAND, M.
Chief, Historical Resources, Parks Canada, Department of Environment, Ottawa. K1A 1G2

Composition du comité

Le comité permanent canadien des noms géographiques est composé de représentants des ministères fédéraux en poste, dans les domaines de la cartographie, des archives, de la traduction, de la défense, de l'administration territoriale, et un représentant de chacune des provinces du Canada.

Représentants du gouvernement fédéral

DROLET, J.-P.
Président du Comité permanent canadien des noms géographiques.

SMITH, W.I.
Archiviste fédéral, Archives publiques du Canada, Ottawa. K1A 0N3

LANDRY, A.
Sous-secrétaire d'État adjoint, Langues officielles et traduction, Secrétariat d'État du Canada, Ottawa. K1A 0M5

MOORE, R.E.
Directeur général, Direction des levés et de la cartographie, ministère de l'Énergie, des Mines et des Ressources, Ottawa. K1A 0E9

HAMMOND, C.L.
Coordinateur de la recherche en toponymie pour le Territoire du Yukon, les Territoires du Nord-Ouest et les réserves indiennes, ministère des Affaires indiennes et du Nord canadien, Ottawa. K1A 0H4

GRAINGER, Col.R.A.
Directeur de la cartographie, ministère de la Défense nationale, Ottawa. K1A 0K2

MacPHEE, S.B.
Hydrographe fédéral, ministère des Pêches et des Océans, Ottawa. K1A 0E9

SUTHERLAND, M.
Historien en chef, Recherches historiques, Parcs Canada, ministère de l'Environnement, Ottawa. K1A 1G2

Provincial Members

GODFREY, C.E.
Secretary of the Newfoundland Geographical Names Board, Department of Forest Resources and Lands, St. John's, Newfoundland. A1C 5T7

BOYLAN, D.B.
Secretary of Cabinet, Executive Council Office, Charlottetown, Prince Edward Island. C1A 7N8

AuCOIN, K.
Director of Surveys, Department of Lands and Forests, Halifax, Nova Scotia. B3J 2T9

MYLES, D.
Supervisor of Historic Sites, Historical Resources Administration, Fredericton, New Brunswick. E3B 5H1

BEAUDIN, F.
President, Toponymy Commission, Ministry of Education, Québec, Quebec. G1R 2J1

O'DONNELL, J.H.
Director, Surveys and Mapping Branch, Ministry of Natural Resources, Toronto, Ontario. M7A 1W3

ROBERTS, A.C.
Director of Surveys, Department of Natural Resources, Winnipeg, Manitoba. R3H 0W4

TURNBULL, J.
Director, Central Survey and Mapping Agency, Saskatchewan Supply and Services, Regina, Saskatchewan. S4P 3T6

PANNEKOEK, F.
Director of Historic Sites Service, Alberta Culture, Edmonton, Alberta. T6G 2P8

PEARSON, D.F.
Surveys and Resource Mapping Branch, Ministry of Environment, Victoria, British Columbia. V8V 1X5

Other Members

OMMANNEY, C.S.L.
Chairman, Advisory Committee on Glaciological and Alpine Nomenclature.

WONDERS, W.C.
Chairman, Advisory Committee on Toponymy Research.

Représentants des provinces

GODFREY, C.E.
Secrétaire, Comité des noms géographiques de Terre-Neuve, ministère des Terres et des Ressources forestières, St. John's, Terre-Neuve. A1C 5T7

BOYLAN, D.B.
Secrétaire du Cabinet, Bureau du Conseil exécutif, Charlottetown, Île-du-Prince-Édouard. C1A 7N8

AuCOIN, K.
Directeur des levés, ministère des Terres et Forêts, Halifax, Nouvelle-Écosse. B3J 2T9

MYLES, D.
Surveillant des Lieux historiques, Administration des Ressources historiques, Fredericton, Nouveau-Brunswick. E3B 5H1

BEAUDIN, F.
Président, Commission de toponymie, ministère de l'Éducation, Québec, Québec. G1R 2J1

O'DONNELL, J.H.
Directeur, Direction des levés et de la cartographie, ministère des Ressources naturelles, Toronto, Ontario. M7A 1W3

ROBERTS, A.C.
Directeur des levés, ministère des Ressources renouvelables, Winnipeg, Manitoba. R3H 0W4

TURNBULL, J.
Directeur, Agence centrale des levés et de la cartographie, Approvisionnements et des Services Saskatchewan, Regina, Saskatchewan. S4P 3T6

PANNEKOEK, F.
Directeur des Ressources historiques, Culture de l'Alberta, Edmonton, Alberta. T6G 2P8

PEARSON, D.F.
Direction des levés et de la cartographie, ministère de l'Environnement, Victoria, Colombie-Britannique. V8V 1X5

Autres représentants

OMMANNEY, C.S.L.
Président, Comité consultatif de la nomenclature glaciologique et alpine.

WONDERS, W.C.
Président, Comité consultatif de la recherche toponymique.

Principles of Nomenclature

The principles of nomenclature which guide the decisions of the Canadian Permanent Committee on Geographical Names are summarized as follows:

1. Names created by legislation are accepted by the Committee.
2. Postal authorities, railway companies, major utilities and resource development companies are encouraged to seek the advice of the Committee concerning names connected with their operations.
3. First consideration is given to names with well-established public usage. Unless there are good reasons to the contrary, this principle should prevail.
4. Established names that have proved acceptable and satisfactory should not be changed or altered.
5. Names applying to various service facilities (e.g. post offices, stations) should conform with the names of the communities which they serve. Only a single name should be given for each feature.
6. Duplication of names to the extent that it may cause confusion should be avoided.
7. Approval of both an English and a French form of a name for the same feature may be sanctioned where both have well-established usage.
8. The application of a personal name is not made unless it can be demonstrated that exceptional circumstances exist and it is in the public interest to do so.
9. Preferred sources for names are: descriptive names appropriate to the features; pioneers, explorers and historical events connected with the area; names from native languages currently or formerly identified with the general area.
10. Indian and Inuit names shall be recorded according to the best recognized orthography.
11. Names should be euphonious and in good taste.
12. Qualifying words such as upper, new, west branch, and big may be used in an area to distinguish between two or more features with identical names.
13. A generic should indicate the nature of the feature.

Principes de nomenclature

Résumé des principes de nomenclature qui orientent les décisions du Comité permanent canadien des noms géographiques:

1. Le Comité accepte les noms créés par une loi.
2. Le Comité engage les sociétés de chemin de fer, les services publics, les responsables des postes et les sociétés qui exploitent les ressources naturelles à le consulter au sujet des noms reliés à leurs activités.
3. Les noms consacrés par l'usage ont la priorité. Ce principe doit dominer à moins que le contraire ne soit pleinement justifié.
4. Les noms dont l'usage a révélé qu'ils étaient acceptables et satisfaisants ne doivent être ni changés ni modifiés.
5. Les noms de diverses installations de service (par ex: les bureaux de poste, les gares) doivent s'accorder avec ceux des collectivités qu'elles desservent. Ne pas donner plus d'un nom à un élément.
6. Le double employ d'un nom doit être évité lorsque ce nom peut prêter à confusion.
7. Les désignations anglaise et française d'un même élément ne seront approuvées que lorsque l'usage en aura manifestement accrédité les deux formes.
8. L'emploi d'anthroponymes (noms de personnes) est interdit, à moins que l'on fasse état de circonstances exceptionnelles et qu'il y aille de l'intérêt public.
9. Les toponymes choisis devraient de préférence être des noms descriptifs propres aux éléments considérés, des noms de pionniers, d'explorateurs ou d'événements historiques qui ont un lien avec la région; ou encore des noms tirés des langues autochtones assimilés actuellement ou autrefois avec la région environnante.
10. Les noms indiens ou inuit doivent être enregistrés selon la meilleure orthographe reconnue.
11. Les noms doivent être euphoniques et de bon goût.
12. Des qualicatifs tels que haut, nouveau, ouest et grand peuvent être utilisés dans une région pour distinguer deux ou plusieurs éléments répondant au même nom.
13. Le terme générique doit indiquer la nature de l'élément qu'il sert à désigner.

Procedures Concerning the Submission of Geographic Names

Proposals

Except in exceptional circumstances, the Committee itself does not initiate naming. Most new names approved by the Committee are submitted by the general public and by organizations. Such names should be for specific geographical features.

Individuals or organizations contemplating the publication of geographical names should submit proposals well in advance of publication dates. The consideration of new names may require considerable time, particularly when local investigation is required. The publication of unauthorized names will not necessarily result in official recognition.

Descriptive names, local names and names relating to the history of an area are preferred. The following information accompanied by adequate documentation will facilitate prompt decisions:

(a) location by latitude and longitude, specifying map consulted;
(b) identification on a map indicating precise extent of the feature;
(c) photographs or sketches;
(d) reasons for proposals;
(e) origin.

Changes

Reliable, preferably documented, information concerning corrections in the use, spelling or application of toponyms on maps and charts is welcomed by the Committee.

Inquiries

Inquiries concerning geographic nomenclature in Canada, proposals concerning new names, or changes in the form, spelling or application of existing names, may be submitted in writing to:

Executive Secretary
Geographical Names
615 Booth Street
Ottawa, Ontario K1A 0E9
Telephone: 613-992-3405

Directives pour la soumission de noms géographiques

Propositions

A moins de circonstances exceptionnelles, le Comité n'amorce pas lui-même le mécanisme de désignation des lieux. Les nouveaux noms approuvés par le Comité sont pour la plupart proposés par un particulier ou un organisme. Ces noms doivent s'appliquer à des éléments géographiques précis.

Les particuliers ou les organismes qui envisagent de faire publier des noms géographiques doivent présenter leurs propositions longtemps à l'avance. L'examen des nouveaux noms peut demander du temps, surtout s'il faut procéder à des enquêtes sur place. Un nom ne reçoit pas forcément la sanction officielle parce qu'il a déjà été publié.

Il faut proposer de préférence des noms descriptifs, d'usage local ou des noms qui évoquent une page de l'histoire de la région. Il est souhaitable de soumettre au Comité les renseignements suivants et la documentation pertinente; les décisions n'en seront que plus rapides. Ces renseignements sont:

(a) la latitude et la longitude du lieu considéré, en indiquant la carte consultée;
(b) l'identification de l'élément sur une carte en indiquant son étendue exacte;
(c) des photographies ou des croquis;
(d) les raisons motivant la proposition;
(e) l'origine.

Modifications

Le Comité accueille favorablement tout renseignement sûr, et de préférence documenté, relatif aux corrections à apporter à l'utilisation, à l'orthographe ou à l'application de toponymes sur les cartes géographiques.

Demandes de renseignements

Les demandes de renseignements concernant la toponymie du Canada, les propositions de nouveaux noms ou les modifications apportées à la forme, à l'orthographe ou à l'application de noms existants doivent être soumises par écrit au:

Secrétaire exécutif
Noms géographiques
615, rue Booth
Ottawa (Ontario) K1A 0E9
Téléphone: 613-992-3405

Explanatory Notes

Incorporated Entities

City	Any settlement incorporated under the Provincial Act as a City.
Town	Any populated place incorporated under the Municipalities Act as a Town.
Community	Any settlement incorporated under the Municipalities Act as a Community.
Local Service District	Any settled area incorporated under the Municipalities Act as a Local Service District.

Unincorporated Entities

Settlement	Any permanently occupied, unincorporated area normally identified by a single name, generally rural, and having a recognizable central focus.
Neighbourhood	Any sub-division of a municipality or settlement which has an identity (socio-economic or cultural), or is set off by a boundary, and is normally recognized by a distinctive name.
Locality	Any named site with no permanent population or, if populated, identified with specialized activities, (junction, siding, landing, station, Post Office, services, etc.).
Vacated or Seasonal Settlements	Any area formerly settled by a permanent population and presently vacated, or a place occupied temporarily and seasonally for resource exploitation, recreation or leisure.
Canadian Forces Station	Any established station for operations of the armed forces.

Alphabetization

All elements of a community or locality name constitute a single proper name and are, therefore, alphabetized letter by letter. In previous editions of the Gazetteer of Canada Series, these names were shown in upper case, (for example, ST. JOHN'S and CORNER BROOK), in order to distinguish them from physical or cultural features. However, in this edition, these names are shown in both upper and lower case in order to reflect their approved form, (for example, St. John's and Corner Brook).

The names of most physical and cultural features consist of a specific, for example, Copper in Copper Rock and Ship Cove in Ship Cove Ponds; and of a generic, for example, Island in Soldier Island and National Park in Terra Nova National Park.

Notes explicatives

Entités constituées

Cité	Toute zone d'habitation constituée en cité en vertu d'une loi de la province.
Ville	Toute zone d'habitation constituée en ville en vertu d'un décret de la municipalité.
Communauté	Toute zone d'habitation constituée en communauté en vertu d'un décret de la municipalité.
District de service local	Toute zone d'habitation constituée en district de service local en vertu d'un décret de la municipalité.

Entités non constituées

Établissement	Toute zone habitée en permanence, non constituée, habituellement rurale, normalement désignée par un seul nom et ayant un point central identifiable.
Quartier	Toute subdivision de municipalité ou d'établissement qui est revêtue d'une identité (socio-économique ou culturelle), ou qui est délimitée, et qui est habituellement désignée par un nom distinct.
Localité	Tout endroit désigné par un nom qui n'a pas de population permanente ou qui, lorsqu'il a une telle population s'identifie à une activité particulière (jonction, voie ferrée secondaire, débarcadère, station, bureau de poste, services, etc.).
Établissement abandonné ou saisonnier	Toute zone ayant déjà été habitée en permanence mais inhabitée actuellement, ou tout endroit occupé de façon temporaire et saisonnière aux fins d'exploitation de ressources, de loisirs ou de passe-temps.
Station des Forces canadiennes	Une station établie servant aux Forces armées.

Classement alphabétique

L'ensemble de la dénomination d'un centre constitué ou non est traité comme un nom propre et donc classé par ordre alphabétique, en considérant toutes les lettres. Les noms des lieux étaient écrits en lettres majuscules dans les éditions précédentes de la série des Répertoires géographiques du Canada afin de les différencier des éléments physiques et culturels, par exemple ST. JOHN'S ou CORNER BROOK. Toutefois, ils sont écrits en lettres majuscules et minuscules dans la présente édition afin de refléter leur forme officielle, par exemple St. John's et Corner Brook.

The names of these features are listed letter by letter, so that West Baldwin Rock precedes West Bay, and Middle Woods precedes Mid Rock. Exceptions to this arrangement are:

a) when a generic precedes the specific, as in Cape Mutton, the name is listed in the gazetteer as Mutton, Cape;

b) when the name begins with a definite article, as in The Key, it is listed as Key, The. This also applies to names whose elements are wholly approved in French, such as Lac Fonteneau, which is listed as Fonteneau, Lac, but when the decision is composed of a specific of French origin and an English generic, such as Port au Choix Peninsula, the name is alphabetized exactly as approved;

c) when French particles occur in names, such as "à" and "de" they are placed with the generic, resulting in listings such as Jean, L'Anse à and Sable, Pointe de.

Identical names are listed in ascending order of latitude.

Where an abbreviation is used, such as "St.", the alphabetical arrangement proceeds as though the abbreviated word were spelled in full, for example, St. Michaels Bay precedes Sakotalik Summit.

Les noms de la plupart des éléments physiques et culturels sont constitués d'un nom propre, le spécifique, comme Loup dans Anse à Loup ou Petit dans Petit Rocher, et d'un générique comme Bay dans Moules Bay ou Parc national dans Parc national du Gros Morne.

Ces noms complets d'éléments sont utilisés lettre par lettre pour le classement alphabétique. C'est ainsi que Roundabout Pond vient avant Round Cove. Il y a toutefois des exceptions à cette règle:

a) quand le terme générique précède le nom propre, comme dans Rivière aux Poissons, le nom est inscrit et classé comme Poissons, Rivière aux;

b) quand le nom commence par un article défini, comme dans La Baleine Rock, il est inscrit et classé comme Baleine Rock, La. Lorsque le nom anglais est composé d'un nom propre d'origine française et d'un terme générique anglais, comme Pointe Riche Peninsula, le nom est classé conformément à la façon dont il est approuvé;

c) lorsque le nom contient une particule, comme "à" et "de", cette particule accompagne le générique, de sorte que le nom est classé comme étant Jean, L'Anse à et Sable, Pointe de.

Les noms identiques sont classés d'après l'ordre croissant des latitudes.

Quand on utilise une abréviation telle que "St", le classement alphabétique s'effectue comme si le terme abrégé était écrit en toutes lettres. Ainsi, St-Paul, Rivière précède Saut du Chien Point.

Language Treatment

The material in this gazetteer is presented in a manner designed to serve the needs of both English and French-speaking readers in a single volume.

Each name is recorded in the language form actually approved by the provincial representative on the Canadian Permanent Committee on Geographical Names. This normally reflects majority local use.

A glossary of generic terms is included. The definitions in the glossary are given in both English and in French, as are all other general notes and explanatory items in the text.

In some instances, when the name does not contain a generic term, or the generic term used does not convey the nature of the feature represented, an explanatory descriptive term is given in brackets, in both English and French, e.g. Hook, The (Spit-Épi); Needle, The (Hill-Colline); North Skerries (Islands-Îles); President's Seat (Mountain-Montagne).

Usage linguistique

Les renseignements contenus dans ce Répertoire sont présentés de manière à pouvoir répondre en un seul volume aux besoins des lecteurs francophones et anglophones.

Chaque nom est indiqué sous la forme linguistique approuvée par le délégué de la province auprès du Comité permanent canadien des noms géographiques. Cette forme correspond normalement à l'usage local le plus courant.

Le Répertoire comporte un glossaire des termes génériques. Les définitions y sont données en français et en anglais; il en va de même pour toutes les autres notes générales et explicatives dans le corps du texte.

Parfois, lorsque le nom ne comporte pas de terme générique ou lorsque le terme générique utilisé ne définit pas la nature du détail représenté, un terme descriptif explicatif est indiqué entre parenthèses, en anglais et en français; par exemple: Horse Chops (Headland-Promontoire); Mugfords, The (Islands-Îles); Northern Feeder (Brook-Ruisseau); Hen and Chickens (Rocks-Rochers).

Map Reference

The purpose of this column is to assist the user when a map is required. The map is the 1:50 000 scale, being the largest scale available for complete map coverage of Newfoundland in the National Topographic Series. By

Région cartographique

Cette colonne a pour but d'aider l'utilisateur appelé à se servir d'une carte. Elle renvoie aux cartes au 1:50 000, la plus grande échelle représentée au Système national de référence cartographique couvrant la province de

referring to the map index inside the back cover of the gazetteer, the user can readily determine in what area of Newfoundland a particular feature is located.

It should be noted that some of the names in this gazetteer may not be found on the referenced 1:50 000 map. This can occur due to the scale of map, or the date of approval of the name, or the date of issue of the map.

Indexes to maps of various scales are available free of charge from:

Canada Map Office
Surveys and Mapping Branch
Department of Energy, Mines and Resources
615 Booth Street
Ottawa, Ontario K1A 0E9

Geographic Co-ordinate Reference

The geographic co-ordinates given indicate the centre of each feature, except for streams, where the position of the mouth is given. The geographic co-ordinates are to the nearest minute.

Glossary of Generic Terms

The following generic terms are used to designate cultural and natural features in Newfoundland. Each generic term is defined as it is used in this gazetteer.

Anchorage	Body of water partially protected by land, and affording shelter for vessels.
Anse	Body of water in a small indentation of a shoreline; a cove.
Archi-pelago	Group or chain of islands.
Arm	Long, narrow extension of a water body.
Baie	Water area in an indentation of a shoreline; a bay.
Bank, Banks	Detached elevation of the sea floor, over which the water depths do not normally constitute a danger to surface navigation.
Bar	Ridge-like accumulation of mud, sand, or gravel at or near a shoreline; usually obstructing navigation.
Barachois, Barasway	Saltwater pond or small bay, usually obstructed by a barrier of gravel, sand or mud.
Barren, Barrens	Tract of flat land; usually with sparse vegetation and often wet.
Basin	Sheltered body of water, connected to another body of water by a narrow passage.
Bay	Water area in an indentation of a shoreline.
Beach	Sloping zone of unconsolidated mud, sand or pebbles formed along shorelines.
Bend	Distinctive curve or turn in a watercourse.
Bight	Water area, in an indentation of the shoreline; a bay.
Bill	Narrow promontory.
Bluff	Abruptly rising land; possibly a headland, cliff or river bank.
Bog	Flat area of wet, spongy ground.
Bottom	Low-lying area; usually swampy.
Branch	Flowing water feature; tributary of a main stream.
Breaker, Breakers	Sea-floor elevation of rock or shale causing continual breaking of waves.
Brook	Flowing watercourse; usually a small branch of a drainage system.
Canyon	Deep narrow valley with precipitous sides.

Glossaire des termes génériques

Les termes génériques suivants sont utilisés pour désigner les détails culturels et naturels de Terre-Neuve. Chaque terme générique est défini en fonction de l'usage qui en est fait dans ce répertoire.

Anchorage	Plan d'eau, partiellement protégé par la terre, permettant le mouillage des bateaux en toute sécurité.
Anse	Plan d'eau dans une petite échancrure, le long d'un littoral.
Archi-pelago	Groupe ou chaîne d'îles; archipel.
Arm	Étendue d'eau longue et étroite prolongeant une nappe d'eau; bras.
Baie	Plan d'eau dans une échancrure, le long d'un littoral.
Bank, Banks	Élévation distincte du fond marin au-dessus de laquelle la profondeur de l'eau ne constitue pas normalement un danger pour la navigation de surface; banc, bancs.
Bar	Accumulation de sable, de boue ou de gravier, en forme de crête, au bord d'un littoral ou près de celui-ci; fréquemment un obstacle à la navigation; barre.
Barachois, Barasway	Étang ou petite baie d'eau salée, normalement obstrué par une barrière de gravier, de boue ou de sable.
Barren, Barrens	Étendue de terrain passablement plate; habituellement souvent mouillée et à végétation clairsemée.
Basin	Nappe d'eau abritée, reliée à une autre étendue d'eau par un passage étroit; bassin.
Bay	Indentation de la ligne de la côte; baie.
Beach	Littoral en pente douce, balayé par les vagues, recouvert de sable, de galets ou de boue; plage.
Bend	Brusque changement de direction d'un cours d'eau.
Bight	Nappe d'eau dans une indentation du littoral; baie; anse.
Bill	Promontoire étroit; bec.
Bluff	Colline comportant une ou plusieurs faces escarpées; possiblement un promontoire, une falaise ou la rive d'un fleuve; escarpement.
Bog	Zone de terrain plat, humide et spongieux.
Bottom	Terrain bas; souvent marécageux.
Branch	Cours d'eau; tributaire d'un cours d'eau principal; branche.
Breaker, Breakers	Avant-plage de roche ou de schiste sur laquelle viennent se briser les vagues; batture.
Brook	Cours d'eau; normalement petit et tributaire d'un réseau d'écoulement; ruisseau.
Canyon	Profonde et étroite vallée avec des côtés escarpés.

Cap, Cape	Prominent headland extending into a sea or lake.
Cave	Hollow in the side of a cliff, or an underground chamber.
Channel	Relatively narrow water body linking two larger water bodies.
Cirque	Deep, steep-sided basin in alpine areas.
Cliff, Cliffs	Steep rock face in the mountains or rising from the shore.
Cove	Body of water in a small indentation along a shoreline.
Creek	(i) Narrow tidal inlet usually at the mouth of a brook or a river; (ii) Watercourse, usually tributary to a river.
Deadwater	Expansion of a watercourse where the water appears to be motionless.
Deep, Deeps	Ocean basin or trough below the general level of the sea floor.
Dribble	Small watercourse; a brook.
Droke, Drook	Small clump of trees.
End	Extremity of a body of land.
Falls	Free descent of flowing water from a rocky elevation.
Feeder	Small watercourse; tributary to a larger stream.
Fiord	Long, narrow, steep-sided arm of the sea.
Flat, Flats	(i) Level, low-lying wetlands along the seashore or river banks; (ii) Large area of flat, wet, usually upland, terrain.
Fork, Forks	Place where two or more watercourses join; a confluence.
Glacier	Mass of ice moving slowly downward from an area of snow accumulation on higher ground.
Gorge	Deep, narrow, steep-sided, river valley.
Ground, Grounds	Underwater feature, close to the surface and dangerous to navigation.
Gulch	(i) Steep-sided ravine; (ii) Cove.
Gulf	Water in a large indentation of the sea.
Gully, Gullies	(i) String of small lakes and marshes; (ii) Small watercourse.
Gut	(i) Narrow channel or inlet; (ii) Deep cove, often at the outlet of a stream.
Harbour, Habours,	Water area usually protected by natural or artificial features, suitable for mooring or

Cap, Cape	Grand promontoire en avancée dans la mer ou dans un lac.
Cave	Espace creux dans la face d'une falaise ou dans la terre; caverne.
Channel	Nappe d'eau relativement étroite réunissant deux nappes d'eau plus grandes; chenal.
Cirque	Profond bassin avec côtés escarpés, dans les régions alpines.
Cliff, Cliffs	Escarpement de roche dans les montagnes ou s'élevant du littoral; falaise.
Cove	Petite nappe d'eau dans une échancrure du littoral; anse.
Creek	(i) Habituellement, étroite embouchure côtière d'un ruisseau ou d'une rivière, où la marée entre; crique; (ii) cours d'eau, normalement tributaire d'une rivière; ruisseau.
Deadwater	Extension d'un cours d'eau où l'eau semble immobile.
Deep, Deeps	Bassin océanique ou creux au-dessous du niveau général du fond marin.
Dribble	Petit cours d'eau; ruisseau.
Droke, Drook	Petit massif d'arbres.
End	Extrémité d'une étendue de terre.
Falls	Endroit où un cours d'eau tombe librement d'un escarpement rocheux; cascade.
Feeder	Petit cours d'eau; tributaire d'un plus grand cours d'eau.
Fiord	Long et étroit bras de mer aux parois abruptes.
Flat, Flats	(i) Terrain horizontal, marécageux et bas; à la ligne côtière; (ii) vaste étendue de terrain habituellement élevé, plat et humide.
Fork, Forks	Endroit où plus d'un cours d'eau se joignent; confluent.
Glacier	Accumulation de glace qui descend lentement des régions neigeuses, en terrain élevé.
Gorge	Vallée profonde, étroite, abrupte et rocheuse où coule un cours d'eau.
Ground, Grounds	Entité sous-marine peu profonde, habituellement dangereuse pour la navigation.
Gulch	(i) Dépression abrupte dans le paysage; un ravin; (ii) anse.
Gulf	Vaste avancée de la mer dans la terre; golfe.
Gully, Gullies	(i) Série de petits lacs et marécages; (ii) petit cours d'eau.
Gut	(i) Étroit chenal ou étroite échancrure; (ii) profonde anse, souvent à l'embouchure d'un petit cours d'eau; goulet.
Harbour, Harbours,	Étendue d'eau, généralement protégée par des éléments naturels ou artificiels, permettant

Havre, Haven	anchoring vessels.
Head	High, prominent land feature extending into a sea or lake.
Highland, Highlands	Large area of upland or mountainous land.
Hill, Hills	(i) Steep slope; (ii) Elevation above the level of the surrounding land; smaller than a "mountain".
Hole, Holes	(i) Small body of landlocked water; (ii) Deep spot in a watercourse; (iii) Small depression of the sea bottom; (iv) Very narrow channel between islands; (v) Very small cove.
Hummock	Small hill.
Île, Iles	Body of land surrounded by water; an island.
Inlet	Narrow channel or body of water extending inland from a lake or sea.
Island, Islands, Isle	Body of land surrounded by water.
Islet, Islets	Small island.
Isthmus	Narrow neck of land bounded on each side by water, and connecting two larger areas of land.
Knob	Round, usually isolated, hill.
Knoll	Small, rounded hill.
Lac, Lake, Lakes	Inland body of standing water.
Ledge, Ledges	Rock extending from the shore, close to the water surface.
Loch	Inland body of standing water; a lake.
Lookout	Elevated place suitable for viewing the surrounding countryside.
Marsh, Marshes	Flat, wet area with low vegetation, subject to flooding.
Meadow	Flat area with low vegetation; may be either wet or dry.
Mont, Mount, Mountain, Mountains	Upland mass, bounded by steep slopes and rising to prominent elevations.
Motion	Stretch of water, with turbulent movement caused by the meeting of heavy cross currents.
Narrows	Constricted part of a water feature; confined entrance to a harbour.

Havre, Haven	l'amarrage ou le mouillage des bateaux.
Head	Terrain abrupt et proéminent, qui s'avance dans un lac ou la mer.
Highland, Highlands	Vaste zone de terrain montagneux ou élevé; hautes terres.
Hill, Hills	(i) Pente escarpée; (ii) élévation au-dessus du niveau des terrains environnants; plus petite qu'une montagne; hauteur.
Hole, Holes	(i) Petite nappe d'eau stagnante à l'intérieur des terres; (ii) endroit à eau profonde, dans un cours d'eau; (iii) petite zone du fond marin moins profonde que la zone environnante; (iv) chenal très étroit; (v) très petite anse.
Hummock	Petite hauteur.
Île, Iles	Étendue de terre entourée d'eau.
Inlet	Étroit chenal ou plan d'eau sortant d'un lac ou de la mer.
Island, Islands, Isle	Étendue de terre complètement entourée d'eau.
Islet, Islets	Petite île.
Isthmus	Étroite langue de terre resserrée entre deux étendues d'eau et réunissant deux étendues terrestres plus vastes; isthme.
Knob	Colline arrondie, généralement isolée.
Knoll	Petit monticule généralement arrondi.
Lac, Lake, Lakes	Nappe d'eau enserrée dans les terres.
Ledge, Ledges	Roche submergée le long d'une côte; bordure rocheuse.
Loch	Nappe d'eau enserrée dans les terres; lac.
Lookout	Lieu élevé sur une colline ou une montagne, à vue panoramique.
Marsh, Marshes	Région plate et humide caractérisée par une végétation d'herbes et de roseaux et sujette à des inondations fréquentes; marais.
Meadow	Terrain plat à végétation courte; peut être sec ou humide.
Mont, Mount, Mountain, Mountains	Importante élévation de terrain escarpé; montagne.
Motion	Étendue d'eau turbulente, occasionnée par le croisement de forts courants.
Narrows	Partie étroite d'un chenal, d'un cours d'eau ou d'un détroit.

National Park	Legally defined land area under federal jurisdiction for outdoor recreation and the preservation of wildlife.
Neck	Narrow piece of land extending into a body of water; or sometimes joining two larger land masses.
Nose	Promontory extending seaward.
Parc national	National Park.
Pass, Passage, Passe	(i) Narrow channel between two larger water bodies; (ii) Low opening through a mountain range.
Patch, Patches	Small, elevated undersea feature.
Peak, Peaks	Conspicuous summit of a mountain or hill.
Peninsula	Elongated point of land extending into a body of water.
Pinnacle	Steeply sloped hill.
Plain, Plains	Tract of generally flat or gently rolling terrain.
Point, Pointe	Land area extending into a water feature; usually low-lying.
Pond, Ponds	Inland body of standing water; a lake.
Pool	Deep, sometimes still, place in a watercourse.
Port	Water area, usually protected by natural or artificial features, suitable for mooring or anchoring vessels.
Promontory	High, prominent land feature extending into a sea or lake.
Provincial Park	Legally defined land area, under provincial jurisdiction, for camping, outdoor recreation, and preservation of wildlife.
Range	Group or chain of mountains or hills.
Rapid, Rapids	Fast-flowing section of a watercourse, often with turbulent water or exposed rocks.
Reach	Comparatively straight stretch of a stream or channel.
Reef, Reefs	Rocks rising to, or near the water surface which may cause a hazard to navigation.
Reservoir	Natural or artificially formed body of water with a controlled level.
Ridge	Long, narrow steep-sided upland.
River, Rivière	Large watercourse.

National Park	Parc national.
Neck	Terrain long et étroit qui s'avance dans une étendue d'eau; ou qui unit deux masses de terre plus grandes.
Nose	Promontoire qui s'avance dans la mer.
Parc national	Terrain sous la juridiction fédérale désigné par la loi pour la récréation et la préservation de la faune et des lieux sauvages.
Pass, Passage, Passe	(i) Étroit chenal navigable entre deux étendues de terre et réunissant deux grandes nappes d'eau; (ii) ouverture basse dans une chaîne de montagnes.
Patch, Patches	Élévation de terrain sous-marine, généralement de petites dimensions; banc, bancs.
Peak, Peaks	Partie remarquable d'une montagne ou d'une colline.
Peninsula	Pointe de terre allongée s'avançant dans une nappe d'eau; péninsule.
Pinnacle	Colline aux versants abrupts.
Plain, Plains	Zone habituellement plate ou légèrement vallonnée sur terre; plaine, plaines.
Point, Pointe	Avancée de terre dans une nappe d'eau; généralement de faible hauteur.
Pond, Ponds	Nappe d'eau enserrée dans les terres; un lac.
Pool	Endroit aux eaux calmes et souvent profondes dans un cours d'eau.
Port	Étendue d'eau, habituellement protégée par des éléments naturels ou artificiels, permettant l'amarrage ou le mouillage des bateaux.
Promontory	Terrain proéminent, élevé, s'avançant en saillie au-dessus de la mer ou d'un lac.
Provincial Park	Territoire délimité par une loi, sous juridiction provinciale, et utilisé pour le camping, la récréation à l'extérieur et la préservation de la vie en plein air.
Range	Groupe ou chaîne de montagnes ou de collines.
Rapid, Rapids	Partie turbulente d'un cours d'eau au courant rapide souvent avec affleurements de roches ou de blocs rocheux; rapides.
Reach	Partie relativement droite d'un cours d'eau ou d'un chenal; section rectiligne.
Reef, Reefs	Roches élevées du fond marin qui se situent habituellement près de la surface de l'eau et constituent un danger pour la navigation.
Reservoir	Nappe d'eau naturelle ou artificielle dont le niveau est contrôlé; réservoir.
Ridge	Étendue longue et étroite de terrain élevé.
River, Rivière	Cours d'eau important.

Road, Roads	Body of water partially protected by land, and affording shelter for vessels.
Rock, Rocks	Solid mass rising from the sea bottom, close to or above the water surface.
Ruisseau	Small watercourse; brook, stream.
Run	(i) Small, narrow and fast-flowing watercourse; (ii) Narrow saltwater passage.
Sea	Large body of salt water.
Shoal, Shoals	Elevated undersea feature of unconsolidated material, constituting a danger to surface navigation.
Shore	Narrow strip of land bordering a body of water.
Slough	Stagnant marshland where water collects in wet seasons.
Sound	Large arm of the sea.
Spit	Long, narrow accumulation of sand and gravel projecting seaward from the shore.
Spot	Small shoal.
Steady, Steadies	Still water not apparently affected by stream or tide.
Stillwater	Expansion of a watercourse where the water appears to be motionless.
Strait	Passage, usually navigable, connecting two larger bodies of water.
Strand	Narrow strip of land bordering a body of water.
Stream	Flowing watercourse.
Summit, Summits	Highest point of a mountain or hill.
Sunker, Sunkers	Solid mass rising from the sea bottom, close to or above the water surface.
Tarn, Tarns	Small mountain-rimmed lake.
Thoroughfare	Narrow channel joining two water bodies.
Tickle, Tickles	Narrow saltwater channel.
Tolt	Isolated hill.
Valley	Elongated depression between hills or mountains.
Waters	Cluster of small standing water features.
Woods	Tracts of treed land.

Road, Roads	Plan d'eau partiellement protégé par la terre où les bateaux peuvent mouiller en toute sécurité.
Rock, Rocks	Masse solide s'élevant du fond marin à proximité ou au-dessus de la surface de l'eau.
Ruisseau	Petit cours d'eau.
Run	(i) Petit cours d'eau étroit à courant rapide; (ii) chenal étroit d'eau salée entre deux étendues de terre.
Sea	Très grande étendue d'eau salée; mer.
Shoal, Shoals	Entité sous-marine élevée composée de matériaux non consolidés, qui constitue un danger pour la navigation de surface; haut-fond.
Shore	Bande de terre étroite en bordure d'une nappe d'eau; rivage.
Slough	Terrain marécageux avec de l'eau stagnante, où l'eau s'accumule durant les saisons humides.
Sound	Grand rentrant de la mer; bras de mer.
Spit	Longue et étroite langue de sable et de gravier s'avançant dans la mer; épi de terre.
Spot	Petit haut-fond.
Steady, Steadies	Eaux dormantes qui semblent de ne pas être affectées ni par un courant ni par la marée.
Stillwater	Section expansive d'un cours d'eau au mouvement imperceptible; eaux dormantes.
Strait	Passage, habituellement navigable, reliant deux grandes étendues d'eau; détroit.
Strand	Bande de terre étroite en bordure d'une nappe d'eau; estran.
Stream	Cours d'eau.
Summit, Summits	Point culminant d'une montagne ou d'une colline; sommet.
Sunker, Sunkers	Masse solide s'élevant du fond marin jusqu'à la surface de l'eau ou au-dessus de celle-ci.
Tarn, Tarns	Petit lac encerclé par les montagnes.
Thoroughfare	Étroit chenal qui relie deux étendues d'eau.
Tickle, Tickles	Petit chenal d'eau salée.
Tolt	Colline isolée.
Valley	Dépression de terrain longue et large entre des collines ou des montagnes; vallée.
Waters	Groupe de petit plans d'eau à l'intérieur des terres.
Woods	Vastes étendues de terrain boisé.
